Your email and/or your password is invalid.
Please check them and try again or click 'forgot password' to reset it.
Bug #2

Title:
Toggling between French and English language does not change the URL

Description:
When the user switches the language by clicking on the toggle option for language on the top of the screen, the UI changes but the URL remains the same and it does not indicate in the URL which language you are on

English Page:

French Page:

Steps to Reproduce the Issue:
-   Navigate to signup page
-   Check the URL
-   Toggle the language
-   Check the URL again

Expected Results:
URL must change based on the language you choose, it should have either /en or /fr to indicate the selection

**Actual Results:**
URL remains the same

Bug #3

Title:
Hamburger menu is not available to see or click when you are in the desktop view

Description:
There is hamburger menu available when the user viewport is a mobile view, but when it is a desktop view the menu disappears

Steps to Reproduce the Issue:
- Navigate to the signup page
- Change the viewport to mobile view in the developer tools of your window
- Observe the top right of the page to see the hamburger menu
- Change the viewport to desktop view
- Observe the top right of the page

Expected Results:
Options on the page across all viewports should be similar

Actual Results:
Hamburger menu not available in the desktop view

Bug #4

Title:
When you access any page in the hamburger menu on mobile view it goes to production website instead of QA

Description:
When the user is in the QA website in a mobile view and clicks on hamburger menu on the top right, all the links in that menu redirects the user to production website

Steps to Reproduce the Issue:
- Navigate the signup page
- Switch to Mobile view using the viewport options from the developer tools on your browser
- Click on the Hamburger Menu
- Click on any options available in the Menu

Expected Results:
When user is in QA website all the page redirects must be to QA pages

Actual Results:
User is redirected to production pages from the QA website

Bug #5

Title:
Clicking Nesto logo on the top left does not send you to the home page

Description:
When user is in any other pages other than the home page and clicks on the Nesto logo on the top left corner, user is not redirected to the home page

Steps to Reproduce the Issue:
- Open the login page
- Navigate to signup page or click on the forgot password page
- Click on the Nesto logo on the top

Expected Results:
Whenever user clicks the company logo it should send the user to a home page

Actual Results:
No action happens whenever the user clicks the logo in any pages
